

HOUSE OF COMMONS  
LONDON, SW1A 0AA

Dear Echo Reader,

Wednesday 22<sup>nd</sup> June 2016

Tomorrow we ask you to “**vote leave**” and put the great back into Great Britain.

As your local Members of Parliament we feel that you will be better off as an independent nation state. This is your once in a generation opportunity for change.

- We need to take back control of our laws.
- We need to stop sending £350m a week to unelected bureaucrats in Brussels.
- We need a fairer, safer immigration system.
- We need to trade with the whole world including the Commonwealth not just the EU.

The choice is between an independent nation state in control of our own future or an ever increasingly strong European Union that takes over our nation state.

Ask yourself – if we were not in would I want to join this club?

A President, a Parliament, a currency and a flag – unlimited immigration from all EU countries and new ones like Turkey with a population of 76m – all this an costing us £350m a week. Not on your nelly.

Vote Leave.
